

WHAT TO EXPECT AS A CLIENT OF

# HIVE BUSINESS

---

**IMPROVE FINANCIAL PERFORMANCE**

We only work with  
**DENTISTS**

## Here's what you need to know about **HIVE BUSINESS**

---

We provide all core accountancy services including accounts, tax, payroll and everything else to help your business financials stay compliant. However, we'll also alert you when we spot opportunities to protect your wealth. In that sense our accountancy service dovetails seamlessly with our wealth strategy service.

Our team of experts work together to ensure you're getting the best business advice for your family. You won't find another specialist dental accountant doing this, and we're a million miles away from NASDAL best practice. We go way further, we're way more ambitious.

Access to our dental business experts will help take the pain out of any problems you are encountering. We create value for your business not just by delivering services, but by curating the perfect team and specific combination of services to get you where you need to be. All our clients receive this bespoke treatment.

It's there in our multi-disciplinary approach and the way we ask our individual team members to adhere to the T-shaped model of knowledge: be deep in your specialism but broad and shallow in your reach, so that you can sit at a table with other specialists and contribute.

We look forward to understanding your business from the inside and working with you as a partner to take it wherever you want to go.

# INCLUDED IN OUR ACCOUNTANCY SERVICES

---

**A bookkeeping software solution to suit your needs.** This will ensure keeping your books up to date is simple and efficient. We'll make sure you're up to speed with how to use it too.

**Help and support from our knowledgeable, friendly team.** Our team are ready to take your questions when you need us. We also make sure to keep you up to date so you won't just hear from us once a year.

**Monitoring of tax deadlines** and providing you with a tax payment schedule detailing what you need to pay and by when. We'll always provide this information with plenty of notice so you're always prepared.

**Regular tax reviews** to make sure you're in the best position for you and your business and making the most of your financial situation.

**Dealing with HMRC on your behalf.** We understand that spending hours on hold to speak to someone about your taxes isn't going to be high on your priority so let us do it for you.

# YOUR VALUE GUARANTEE

Our unique approach, combining proactive analysis, real-time data, and excellent communication (across both compliance and one-off projects), is what really sets Hive apart. This is why, **if you're not happy with how we work during our first year together, we'll refund your initial 12 months' fee.**

We have absolute confidence that we'll offer a better service than your previous accountant. This is because we work in a completely different way to traditional accountants, with a process and range of services that are designed around your unique needs. However, we also know that when you've had a bad (or even a lacklustre) experience, it's hard to trust that a new partner won't just repeat the same old mistakes. This is why we have a money-back guarantee across our accountancy offerings.

We know that sometimes you may need to know a rough price, so we've put together a guide to our accountancy compliance services for associates below (all prices include VAT). Our pricing for associates with a limited company is priced per month not per annum.

We encourage you to have a free consultation with one of our friendly team to discuss your circumstances, as financial requirements differ from person to person and this may impact the price. However, what you pay in accountancy fees, you often get back in tax savings, so book a call to find out how we can help you.

## WHAT'S INCLUDED?

## HOW MUCH WILL IT COST?

## WHO IS IT FOR?

**Compliance** - when self employed you need to submit an annual tax return to HMRC. We can deal with this so you don't have to.
